PRICE LIST

Of High Grade Nursery Stock
SPRING & FALL 1915

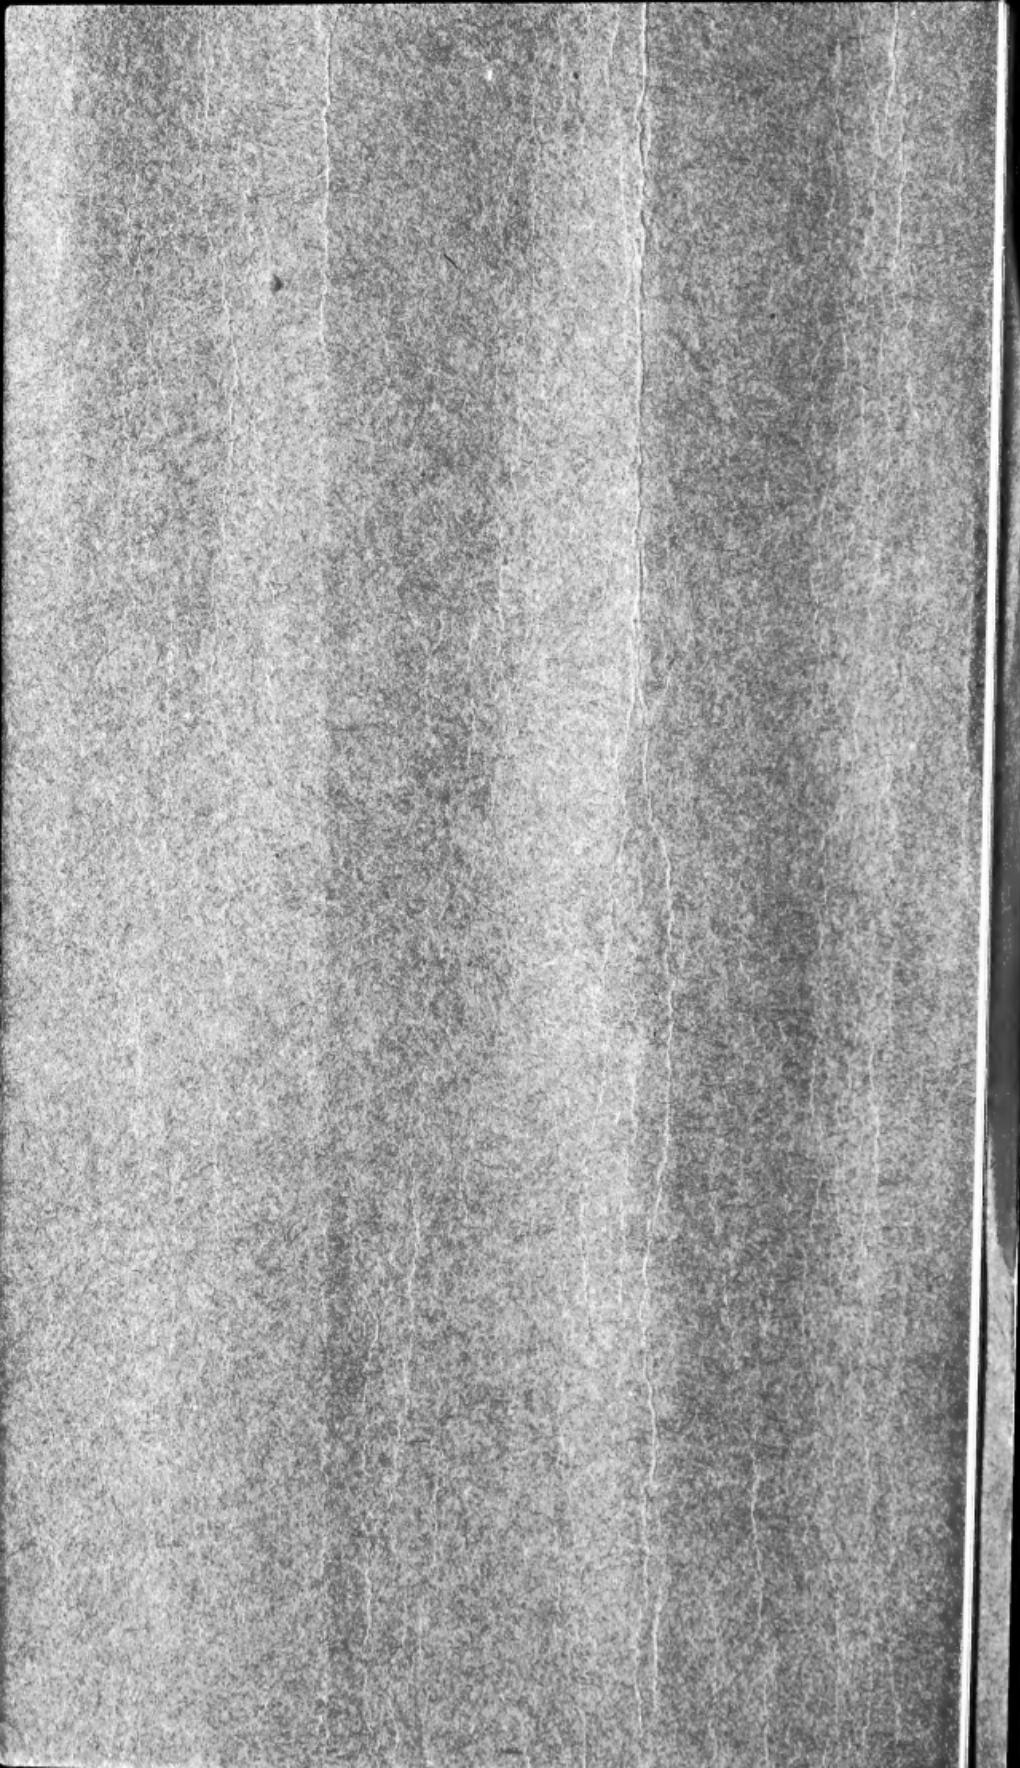

Moundridge Nursery Company

J. F. Crippen, Manager

MOUNDRIDGE, KANSAS.

We Pay Freight and Express

FEB 6 . 1915

TO OUR CUSTOMERS

We wish to thank our many friends and patrons for the liberal patronage they have been giving us year after year. Our greatest aim shall always be to deal with them in such a way that we may be worthy of their confidence and patronage. We do not ask our customers to send in the money before they receive their trees, nor do we ship them C. O. D., but ship them direct to them and let them pay for them after they get their nursery stock, which we guarantee to get to them in good condition. Could we do business that way if we did not do a square business? Where can you find a nursery that ships trees or nursery stock in that way? Wishing you a prosperous and a happy year, we are,

Respectfully yours,

Moundridge Nursery Co.

INTRODUCTORY

Price list of Moundridge high-grade nursery stock, budded and grafted from bearing trees. We keep an experimented orchard and test all new varieties and only send out what we believe to be worthy, and discard all worthless stuff, which you may be sure is no small percentage these times. Our experience has been over forty years in the tree and fruit business and most of the time in Kansas, and we believe we can serve the people as well as the best, and we guarantee satisfaction. We keep a force of experienced help and anyone entrusting their orders to us will never have cause to regret it.

We pack equal, if not better, than any nursery in the U. S., and guarantee to get stock to our customers in No. 1 shape. We take the greatest pains in propagating, and our customers can always rely on getting what they buy.

We thank our many friends that have been patronizing us year after year and always when they want more trees buy from us.

Again it makes us feel good and feel that they appreciate our efforts in producing good stock and getting it to them in good condition and at a reasonable price.

Now we have found out just how to keep our old customers, to do unto them just as we would wish them to do unto us.

We want to add 1,000 new customers to our list in 1913 that have never dealt with us and knowing how much people have been beat that we hardly dare think of one half of that many,

but we are going to make the trial for it at any rate, for it has been our experience that we will have all the new ones we get for years to come whenever they want more trees or shrubbery of any kind.

We are willing to ship our nursery stock to any one who wants to plant it and if they don't happen to see anyone of our agents, if they will send us in an order for what they want, we will ship it direct to them and not ship it C. O. D. either. They can pay the freight or express when it comes and then send the bill to us as that much cash, sending the balance of the bill in money. If we did not know that we could get the trees to you in good shape and give you good stock, we could not ship it in that way, but we have found out after shipping that way nearly everyone is willing to pay for trees when they are sure they have got value received. Our loss is so small that the good that it does us by showing them that we are not afraid to trust them thereby they will place more confidence in us. We are always careful that their confidence may not be shaken, thereby holding their trade year after year.

**Retail Price List of Moundridge Nursery —
High-Grade Stock.**

Apples whole-root, budded or grafted.

Each
